

CLAIMS

What is claimed is:

- 1 1. A golf bag, comprising:
2 an enclosure for containing golf products having a top end and a bottom
3 end;
4 an opening at the top end for allowing access to the golf products;
5 a base located at the bottom end;
6 at least one integrated wheel coupled to the base for providing mobility to
7 the golf bag; and
8 an extendable handle coupled to the opening for providing
9 maneuverability to the golf bag.
- 1 2. The golf bag of claim 1, wherein the at least one integrated wheel is an
2 inline skate wheel.
- 1 3. The golf bag of claim 1, wherein the at least one integrated wheel is
2 coupled to the base piece via a bearing and axle system.
- 1 4. The golf bag of claim 3, wherein a spacer is utilized with the bearing and
2 axle system to couple the at least one wheel to the base.
- 1 5. The golf bag of claim 1, further comprising a kickstand.
- 1 6. The golf bag of claim 1, further comprising a release button coupled to the
2 handle for allowing the handle to extend upward from the opening.

1 7. The golf bag of claim 1, further comprising at least one front support rail.

1 8. The golf bag of claim 7, further comprising at least one extension rail
2 coupled to the at least one front support rail and to the extendable handle.

1 9. The golf bag of claim 1, further comprising at least one back support rail.

1 10. The golf bag of claim 1, further comprising a collar section coupled to the
2 top end of the enclosure.

1 11. The golf bag of claim 10, wherein the collar section further comprises a
2 cradle section for receiving the extendable handle.

1 12. The golf bag of claim 1, wherein the at least one integrated wheel is a
2 skateboard wheel.

1 13. The golf bag of claim 1, wherein the base comprises at least one section
2 that slopes upward.

1 14. The golf bag recited in claim 1, further comprising a kick plate located on
2 the base.

1 15. The golf bag recited in claim 1, wherein the at least one integrated wheel
2 does not extend beyond a perimeter of the golf bag.

1 16. The golf bag recited in claim 1, wherein spacing of the at least one
2 integrated wheel is fixed.

1 17. A golf bag, comprising:
2 a base piece;
3 a container portion coupled to the base piece for housing of golf
4 paraphernalia;
5 a plurality of wheels coupled to the base piece for providing mobility to
6 the golf bag; and
7 an extendable handle coupled to the base piece for providing steerability
8 to the golf bag.

1 18. The golf bag of claim 17, wherein the base piece further comprises a
2 sloped section.

1 19. The golf bag of claim 17, further comprising a release button for releasing
2 and locking the extendable handle in a particular position.

1 20. The golf bag of claim 17, further comprising a guard coupled to the
2 extendable handle for preventing an item from posing a hindrance to a non-
3 extended position of the extendable handle.

1 21. The golf bag of claim 17, further comprising a cradle section coupled to a
2 top section of the enclosure portion for receiving the extendable handle.

- 1 22. The golf bag of claim 17, wherein the plurality of wheels are coupled to
2 the base piece via wheel axles.
- 1 23. The golf bag of claim 22, wherein the wheel axles are contained within the
2 base piece.
- 1 24. The golf bag of claim 17, wherein the spacing of the plurality of wheels is
2 fixed.
- 1 25. The golf bag of claim 17, wherein the plurality of wheels do not extend
2 beyond a perimeter of the golf bag.
- 1 26. A golf bag, comprising:
2 an enclosure for containing golf products having a top end and a bottom
3 end;
4 an opening at the top end for allowing access to the golf products;
5 a base located at the bottom end;
6 an axle coupled to the base;
7 at least one integrated wheel coupled to the axle for providing mobility to
8 the golf bag;
9 at least one front support rail coupled to the base;
10 at least one extension rail coupled to the at least one front support rail;
11 an extendable handle coupled to the at least one extension rail for
12 providing maneuverability to the golf bag; and
13 at least one back support rail coupled to the base.

1 27. A golf bag, comprising:
2 an enclosure for containing golf products having a top end and a bottom
3 end;
4 an opening at the top end for allowing access to the golf products;
5 a base located at the bottom end;
6 an axle contained within the base; and
7 at least one wheel affixed to the axle.

1 28. A golf bag, comprising:
2 an enclosure for containing golf products having a top end and a bottom
3 end;
4 an opening at the top end for allowing access to the golf products;
5 an extendable handle having a guard coupled to the opening;
6 a base located at the bottom end; and
7 at least one wheel coupled to the base.
